1. Applicant's election with traverse of claims 1-39 in the reply filed on 7/6/2005 is acknowledged. The traversal is on the ground(s) that the search would be overlapping. This is not found persuasive because the developing method/apparatus of claims 40-75 require a toner-flight velocity/voltage relationship which would require a non-overlapping search.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 40-75 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 7/6/2005.

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Yamaguchi et al., Tanikawa et al., Fuji et al., Kubo et al. teach various magnetic developing methods but none discloses applicant's claimed relationship.

5. This application is in condition for allowance except for the presence of claims 40-75 to an invention non-elected with traverse in the reply filed on 7/6/2005.

Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Beatty whose telephone number is (571) 272-2130. The examiner can normally be reached on M-F from 9 to 6.
